## Belgium-NAMUR 1955:

Three photographs were taken on June 5, 1955 at about 07:30 P.M. near Namur. The witness indicated that he has visually seen a sharp gleam moving high in the sky without any noise and at high speed. He indicated that the gleam accompanied an object of discoidal shape leaving a white trail behind him.

## **PETIT RECHAIN 1990:**

The famous photography of the UFO of Petit Réchain, April 1990, taken by a photographer who wished to remain anonymous. The photography, as described by the witness, shows three lights in triangle formation and one in the center, without any distinguishable shape.
