Hungary-ERPATAK, OCTOBER 27, 2005:

Lajos Kosina was visiting his girlfriend's parents home in the small village of Erpatak in the county of Szabolcs-Szatmar, Hungary. Lajos's girlfriend posed for one snapshot in her parents' garden and no one noticed anything unusual in the sky at the time.

HUFON have studied the photograph using both optical and computer techniques on the original negative and have concluded that that the UFO is not a result of a film fault, nor is it a small model suspended on a wire. HUFON researchers are convinced that it is a genuine UFO and not the result of a hoax.

BUDAPEST, 2001:

A military pilot recorded this shiny, disc shaped UFO on video tape on September 29, 2001. The pilot stated: "To my left, I saw a bright metal aircraft that was the shape of a perfect disc. I was careful to film the object, not to try and chase it since I could not match its speed."
