South Africa 1956:

Another close up of a picture of a UFO photographed in South Africa in 1956. No further information yet.

SOUTH AFRICA, 1956:

These two photographs have been taken by Elisabeth Klarer over Rosetta, Natal, South Africa on July 17th, 1956. The story of meteorologist and abductee Elizabeth Klarer, and her famous flying saucer hill on the Midlands Meander near Durban, has baffled investigators.

Her book "Beyond the Light Barrier," written more in the style of a romantic novel, caused a rather sceptical response, since Klarer claimed she became pregnant after her encounter with a tall, white-haired spaceship-pilot.

Australia-BLUE MOUNTAIN 1972:

Mr. Taylor has been interested in the subject of U.F.O's for the last 25 years, since he first sighted one while living in Sydney. He has photographed the one shown here when in the Blue Mountains at Katoomba in 1972. A copy of one of the two photographs taken is currently published in *Mysterious Australia* written by Mr. Rex Gilroy. (NEXUS Publishing, P.O.Box 30 Mapleton Qld. 4560.)
